

**Sheri Schully, PhD**

All of Us Research Program

Deputy Chief Medical and Scientific Officer

National Institutes of Health

*The All of Us Research Program Researcher  
Workbench*

Sheri Schully, Ph.D., is the deputy chief medical and scientific officer and the lead for ancillary studies in the All of Us Research Program at the National Institutes of Health (NIH). Through her leadership, she is establishing ancillary studies as a core and scalable capability of the program that will expand the cohort and deliver new phenotypic, lifestyle, environmental, and biological data to the All of Us Researcher Workbench. Dr. Schully has been involved with shaping the program and setting the scientific vision and strategy since its inception.

Before taking this role, Dr. Schully was a team lead and senior advisor for disease prevention in the Office of Disease Prevention (ODP). There she led the effort to systematically monitor NIH investments in prevention research and assess the progress of that research. She also served as the team lead for the Knowledge Integration Team, as well as a program officer in the Epidemiology and Genomics Research Program at the National Cancer Institute (NCI). She came to NIH as an NCI-designated Presidential Management Fellow in 2005.

Dr. Schully's research interests include genomics, personalized medicine, and the integration of genetic and genomic information into clinical and public health practices. Her work has been published in numerous high-impact scientific journals. She earned both a Ph.D. in biological sciences with a concentration in population genetics and a B.S. in zoology with a minor in chemistry from Louisiana State University.
