

James Zou, PhD
Assistant Professor
Biomedical Data Science, Computer
Science and Electrical Engineering
Stanford Univ.
Generative AI for Drug Discovery and Development

James Zou is an assistant professor of Biomedical Data Science, CS and EE at Stanford University. He develops machine learning/AI for precision medicine, from drug and biomarker discovery to clinical trial design. He has received a Sloan Fellowship, an NSF CAREER Award, two Chan-Zuckerberg Investigator Awards, a Top Ten Clinical Achievement Award, several best paper awards, and faculty awards from Google, Amazon, Tencent and Adobe. He is also the faculty director of Stanford AI for Health.
